DESIGN INNSAEIT / MUMBAI

Vineeth Nair

V /

CREATIVE TECHNOLOGY & PRODUCTS

Useful ideas, working systems.

I bring design judgment to software products, connecting interfaces, automation and data workflows around practical everyday needs.

CAPABILITIES

Product and interaction design

TypeScript, JavaScript and Python

React, Next.js and FastAPI

Markdown, SQL and automation

EDUCATION

Kerala State Institute of Design

2019 - 2021

LEARNING

Strategic Thinking / LinkedIn certification

February 2023

SELECTED WORK

01 Personal Brain OS

A self-hosted cockpit connecting everyday capture with a Markdown knowledge base. A consistent capture-to-knowledge workflow reduces fragmentation and makes personal context easier to revisit.

READ PROJECT STUDY

02 GST Invoice Studio

An India-focused workspace for invoices, purchase orders and reusable business records. Consultants and studios can prepare consistent paperwork with less repeated entry and clearer document structure.

READ PROJECT STUDY

03 V/HOME

An ad-free LG webOS launcher designed around a shared living room. Households can reach familiar apps and shared information from one intentional home screen.

READ PROJECT STUDY

LET'S BUILD SOMETHING MEANINGFUL.
